

PREMIER GIGASPIRE

Delivering an Internet experience like no other

The way we use WiFi has changed. With even more devices in your home, you need strong WiFi so you can work, stream, shop and learn uninterrupted. Enjoy a connection that doesn't slow you down no matter how many devices you add.

Get a strong, fast signal—to all your devices.

Better WiFi — Everywhere

GigaSpire delivers an Internet experience like no other

Premier's GigaSpire is a home WiFi solution that works with your Premier Internet service. The GigaSpire and additional Wireless Access points for a "mesh" coverage over your home — goodbye dead spots!

Never worry about WiFi again

Premier takes care of your WiFi so you don't have to

Don't have time to be trouble-shooting your WiFi and fiddling with settings? With the GigaSpire, Premier's Internet HelpDesk gurus can remotely troubleshoot, diagnose and fix issues so you can rest easy.

Easy peasy.

Experience the best WiFi

Get GigaSpire for home **\$7.95**/mo

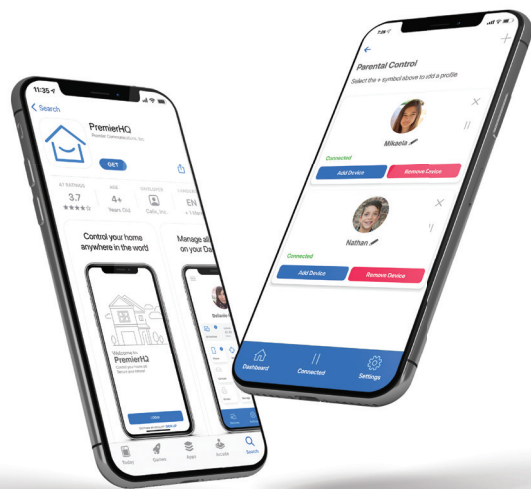

GigaSpire for business **\$10.95**/mo

Introducing the PremierHQ App

Download the PremierHQ app from the app store to manage your settings and all the devices that are connected to your WiFi network through your Gigaspire.

Included **FREE** Features

Basic Parental Control

Set family member profiles and assign unique devices for each profile. Best of all, with just a click you can pause Internet access temporarily to a single profile or multiple profiles.

Guest Network

Enables you to quickly and easily set up a network for guests so when Aunt Betty comes to visit you don't have to give out your family's WiFi password. Just another way to keep your family safe and secure.

Device List

Shows a list of devices connected to your WiFi network.

Network Usage

Shows how much bandwidth each device on your network is using after running a bandwidth test. Make sure the kids' streaming isn't eating up your bandwidth while you're trying to video chat for work.

Upgrade to our enhanced Parental Control Package all within the PremierHQ App

You set the boundaries. We help keep them with customized priorities. Enhanced Parental Control provides the ability to set app and content filters, scheduling and usage reports.

ALL OF THE BASIC PARENTAL CONTROL FEATURES, PLUS:

Block Content:

Completely remove access to specific websites and apps.

Usage History:

See a list of sites or apps each profile has accessed, & the time spent on each site/app. View the list by day, week or month.

Time Limits:

Set the amount of time each family member can spend on certain online. Conveniently sort by websites, games or apps.

Scheduling:

Set times by day for online use, whether it's bedtime, supper-time or just screen-free family time.

Safe Search:

Safe Search defaults Google and Bing searches to remove explicit content from their results.
